Collection of Preferences for English as the Medium of Assessment in Subjects

Dear Parents/ Guardians,

To enhance students' English proficiency and cater to their diverse learning needs, our school is now collecting students' preferences regarding the use of English as the medium of assessment. The subjects covered in this survey include Mathematics, Science, History, Geography, and Citizenship, Economics and Society.

Parents may choose subjects for their children to be assessed in English based on their individual needs and learning progress. It is not mandatory to select all subjects for English assessment. For students who opt for English assessment, the school will arrange English proficiency evaluations for the selected subjects from March 3rd to 5th. Students must pass the English assessment for their chosen subjects to be approved for English medium assessment.

Please complete the e-notice reply slip below by February 28th.

For any enquiries, please contact Assistant Principal Mr. Kam Ho Fai and the subject teachers concerned at 2461 1555.

Yours faithfully,

Chan Yuet Ping

Principal
