Parent Notice 2025-2026/149

Regarding the 2026 School Recommendation Scheme for Talented Students at The Hang Seng University of Hong Kong

Dear Parents,

The Hang Seng University of Hong Kong has announced details regarding the 2026 School Recommendation Scheme for Talented Students. For more information about this scheme, please visit the following link: <https://admission.hsu.edu.hk/zh/srdas-for-talented-students-2/>.

The School Recommendation Scheme for Talented Students (hereinafter referred to as "the Scheme") aims to recognize students' outstanding performance in academic and/or non-academic areas, their contributions to community service, or their leadership abilities, and to provide them with an opportunity for direct admission. Recommended students have the chance to be directly admitted to our university without being affected by the results of the Hong Kong Diploma of Secondary Education (HKDSE).

Recommended students must first submit an application through the online admission system of The Hang Seng University of Hong Kong or the E-APP (Electronic Admission Platform) and complete the entire application process (including uploading their Hong Kong Identity Card and school reports from Forms 4 and 5 to the university's online admission system and paying the application fee) in order to participate in this scheme.

Students must meet the following criteria to participate in the Scheme:

- Must be local students with the right to reside in Hong Kong*; and
- Applicants for the NMTSS courses at The Hang Seng University; and
- Current school applicants taking public exams, such as HKDSE, IB, GCE A-Level, etc.; and
- Excellent academic results; and/or
- Outstanding performance in non-academic fields (e.g., sports, music, arts, etc.); or
- Good leadership skills (e.g., head student, student council president, etc.); or
- Active participation in community service activities.

*For definitions of local and non-local students, please visit the following link:

<https://admission.hsu.edu.hk/zh/definition-of-local-and-non-local-students2/>.

Each recommended student can choose one NMTSS course they wish to participate in from the courses available. For details on the NMTSS courses, please visit the following link:

<https://admission.hsu.edu.hk/zh/by-schools2/>.

If your child is interested in participating in this scheme, please ensure that they meet the requirements for the desired program. Since each school has a limit of five recommendations, all applications must go through the school's selection process.

If interested, please submit a self-recommendation letter by December 18, which should include the reasons for application, the content of the self-recommendation, and the names of the departments to apply for (including the UAS application number shown on the application platform). The self-recommendation letter should be written in English and not less than 200 words, including
